ESCALATORS

Innovative engineering ensures energy and operation efficiency, including the utmost reliability, durability and safety.

BUILDING MANAGEMENT SYSTEM

From one-off sales of elevators, escalators, and air conditioning & ventilation systems to complete packages for commercial and residential building complexes.

POWER MANAGEMENT METERS

Wide array of measuring devices suits various applications, such as quantifying, displaying and monitoring electric power, current, and voltage.

ELEVATORS

Unique state-of-the-art technologies are continuously introduced to improve elevator operation and system efficiency.

VENTILATORS - LOSSNAY

Unique Lossnay heat-exchange technologies help refresh a room's air while leaving temperature and humidity largely unchanged, resulting in substantial energy savings and a comfortable indoor environment.

VARIABLE REFRIGERANT FLOW (VRF) SYSTEM

Commercial-use central air conditioning system with high coefficient of performance offers distributed airflow, independent control of indoor units and design flexibility for installation variations.

ROOM AIR CONDITIONERS

Capable of constant use in a wide range of climates, delivering years of durability, quiet operation, energy-efficient performance.

MULTI SYSTEMS

Completa linha de produtos para manter o espaço de trabalho refrigerado de maneira adequada.

COMMERCIAL / RESIDENTIAL

From one-off sales to complete packages for commercial and retail building complexes, Mitsubishi Electric has the optimal building environment and management system tailored to your needs.

Mitsubishi Electric produces a variety of high-quality products for residential use, incorporating cutting-edge technologies for minimal environmental impact and contributing to sustainability.

INVERTERS

The FREQROL Series general-purpose inverters allow changes to be made to the speed of three-phase induction motors, freely and easily.

LCD DISPLAY WALL SYSTEMS

LCD Display Wall Systems for emergency management centers, crises and meeting rooms.

JET TOWEL

High-speed, low-noise hand dryers that use "jet blasts" of air to dry hands completely in a matter of seconds.

UPS* (Uninterruptible Power Supply)

Precision-engineered, high quality uninterruptible power supplies to protect its customers' mission-critical equipment during times of power instability.

* Under BR market research

AUTOMATION / INFRASTRUCTURE

Offering a vast range of automation and processing technologies, Mitsubishi Electric helps to bring higher productivity and quality to the factory floor and infrastructure.

MODULAR PROGRAMMABLE LOGIC CONTROLLERS (PLCS)

From simple application controllers to high-end automated platforms, the comprehensive array of software tools and networking technologies enables seamless integration with other automation products.

ELECTRICAL DISCHARGE MACHINES

Highly precise, fast processing that expands the range of production applications and contributes to optimum performance.

LASER PROCESSING MACHINES

Unprecedented levels of accuracy and speed for processing various materials of virtually any shape or size.

HUMAN-MACHINE INTERFACES (HMIs)

Designed to deliver maximum usability and increase productivity, by allowing customers to monitor information from PLCs, CNCs, and other FA products, and modify various data.

INVERTERS

The FREQROL Series general-purpose inverters allow changes to be made to the speed of three-phase induction motors, freely and easily.

CNC

Mitsubishi's CNC control platforms provides a world-known quality product by following three major concepts: High quality, Product reliability and Networking capabilities.

MOTION CONTROLLERS

Motion CPUs, stand-alone controller and positioning modules combine to make a lineup that offers high performance, smaller size and ease-of-use

AC SERVOS- MELSERVO

A variety kind of motors (rotary, linear and direct drive motors) in order to achieve the best machine performance.

POWER MANAGEMENT METERS

Wide array of measuring devices suits various applications, such as quantifying, displaying and monitoring electric power, current, and voltage.

UPS* (Uninterruptible Power Supply)

Precision-engineered, high quality uninterruptible power supplies to protect its customers' mission-critical equipment during times of power instability

* Under BR market research

WATER PROCESS SOLUTION

Integration of collection, treatment, quality and distribution systems into a single operational dashboard to obtain a purified and ultra-clean water.

TRANSPORTATION SYSTEMS

Propulsion systems for railcar such as Traction Motors, VVVF Inverters, Controls, and other electrical devices.

JET TOWEL

High-speed, low-noise hand dryers that use "jet blasts" of air to dry hands completely in a matter of seconds.

AIR CONDUCTING FANS

Maintains clean spaces with simple installation, quiet operation and precise temperature control features that helps to lower initial costs and power consumption.

PACKAGE AIR CONDITIONERS

Comprehensive lineup of products helps to realize comfortable work space.

VIDEO WALL SYSTEMS

A diverse lineup of highly reliable DLP LED display cubes for command and control centers.

AUTOMOTIVE MEDIUM & HEAVY DUTY ALTERNATORS AND STARTERS

Highly efficient alternators provide low-noise conversion of mechanical energy to electricity with minimal energy loss, while some of the lightest, most compact starters in the industry improve fuel efficiency and overall reliability.

MITSUBISHI ELECTRIC GROUP AND PARTNERS IN BRAZIL

Mitsubishi Electric do Brasil Comércio e Serviços Ltda.

Av. Paulista 1439 - Ed. Mario Wallace S.Cochrane, 7 andar,
Conj.72 e 74 - Bela Vista

São Paulo/SP - 01311-200

Phone: +55 11 4689-3000

URL: www.mitsubishielectric.com/fa/br_pt/

Sales, service and marketing of Factory Automation products and Process Automation solutions.

Mitsubishi Electric do Brasil Comércio e Serviços Ltda.

Av. Paulista 1439 - Ed. Mario Wallace S.Cochrane, 7 andar,
Conj.72 e 74 - Bela Vista

São Paulo/SP - 01311-200

Phone: (11) 4689-3000

URL: www.mitsubishielectric.com/fa/br_pt/

Sales, service and marketing of Factory Automation products and Process Automation solutions.

Melco Elevadores do Brasil S.A.

BR 116 KM 302,n° 16405, Bairro Bom Fim

Guaíba/RS - 92500-000

Phone: +55 51 3401-9800

URL: www.melcoelevadores.com.br

Manufacturing and sales of elevators & escalators.

Mitsubishi Electric Visual and Imaging Systems

Av. Paulista 1439 - Ed. Mario Wallace S.Cochrane, 7 andar,
Conj.72 e 74 - Bela Vista

São Paulo/SP - 01311-200

Phone: +55 11 4382-3052

URL: www.me-vis.com

Sales, service and marketing of Visual and Imaging Systems.

Melco Automotivos do Brasil Ltda.

Av. Paulista 1439 - Ed. Mario Wallace S.Cochrane, 7 andar,
Conj.72 e 74 - Bela Vista

São Paulo/SP - 01311-200

Phone: +55 11 4134-9292

Manufacturing and sales of Starters and Alternators for medium/heavy duty vehicles.

FAM Ar Condicionado – Mitsubishi Electric

Rua Francisco Dias, 275 - Jd. da Saúde

São Paulo/SP - 04148-000

Phone: +55 11 5067-7900

URL: www.mitsubishiarcondicionado.com

Sales, service and marketing of Room Air Conditioners, Packaged Air Conditioners and Jet Towel.

MELCO CNC do Brasil Comércio e Serviços S.A.

Parque das Arvores, Boituva-SP - 18550-000 Caixa Postal 47

Phone: +55 15 3363-9900

URL: www.melcocnc.com.br

High-tech products in CNC, spreading modern technologies and innovations in industrial automation applied to machine tools.

MC Machinery Systems do Brasil Ltda.

Rua Amapá, 191 - 03191-160 - São Paulo - SP

Phone: +55 11 2966-3600

URL: www.mcmachinery.com.br

Expertise in every aspect of metalworking, from simple fabrication to CNC-driven and automated manufacturing cells.

for a greener tomorrow

Eco Changes is the Mitsubishi Electric Group's environmental statement, and expresses the Group's stance on environmental management. Through a wide range of businesses, we are helping contribute to the realization of a sustainable society.
